# KCA Construction Education Foundation Golf Tournament at Colbert Hills Golf Course

## Join us for the KCA Construction Education Foundation Golf Tournament

Each year, the KCA Construction Education Foundation has donated approximately \$25,000 to various educational institutions and students throughout the state since its inception in 1988 and has provided more than \$800,000 in grants and scholarships. The annual KCA Construction Education Foundation golf tournament was designed to fund this foundation. Our mission is to support a variety of educational institutions and programs that benefit the Kansas heavy, highway and utility construction industry.

These funds have been used to purchase equipment and provide scholarships and professorships at universities and technical schools with programs in civil engineering, engineering technology, construction science and heavy equipment operation. With its IRS status as a 501(c)(3) organization, contributions are tax deductible.

Plan a day of business networking while enjoying a day of golf at Colbert Hills Golf Course in Manhattan. Invite your best clients to form a foursome and register today. Space is limited for this flighted tournament.

Invitations are going to KCA members and special guests. You may form your own team or register as an individual.

June 3, 2021
